

Numbers 1 to 20

Trace and Count

Ages 3–6 · 32 pages

Name: _____

Welcome, Parents and Teachers!

Welcome! Every number from 1 to 20 gets its own page. Your child traces the number and its word, then counts a group of pictures, colors them and writes how many. Short tracing pages after each group give extra pencil practice, and skip counting closes the book.

How to use this book

- 1** Print on A4 or US Letter paper at 100% (Actual size). A pencil works best for tracing; crayons are great for the counting pictures.
- 2** Count out loud together, touching each picture once. Pointing helps children match one number word to one object.
- 3** Do a few pages at a time. Numbers 1 to 5 are a good first goal before moving on to 6 to 10 and then 11 to 20.
- 4** Ask "how many are there?" before writing the number in the box, and let your child check by counting again.
- 5** Use real objects too (blocks, buttons, snacks) to show that the number on the page matches the number in the room.
