

Scissor Skills

Cutting Practice

Ages 3–6 · 29 pages

Name: _____

Welcome, Parents and Teachers!

Welcome! Cutting with scissors builds the hand strength and two-handed control children need for writing. This book moves in small steps: snips and straight lines first, then zigzags, waves and curves, then shapes, then pictures to cut out and color.

How to use this book

- 1** Print on A4 or US Letter paper at 100% (Actual size). Plain copy paper is easiest to cut. Use child-safe scissors that fit your child's hand.
- 2** Show the grip: thumb in the small loop, middle finger in the big loop, and the "helper hand" holding the paper. The thumb should point up at the ceiling.
- 3** Start at the green dot and cut along the dashed line to the red square. Let your child turn the paper rather than the scissors.
- 4** Work in order. Snips and straight lines first, curves and shapes later. If a page is too hard, go back one step and try again tomorrow.
- 5** Always supervise cutting, and keep the cut-outs: they make great collages, cards and name tags.
