

Shapes

Trace and Color

Ages 3–5 · 31 pages

Name: _____

Welcome, Parents and Teachers!

Welcome! Shapes are everywhere, and learning them helps with early math, drawing and later letter writing. Each of ten shapes gets a tracing page and a shape-hunt page where your child finds and colors every matching shape. Practice pages and matching games finish the book.

How to use this book

- 1** Print on A4 or US Letter paper at 100% (Actual size). Crayons or colored pencils are best for the shape-hunt pages.
- 2** Trace the big dotted shape from the green dot, following the arrow. Say the name of the shape and count its sides and corners together.
- 3** On the shape-hunt pages, ask your child to color only the shape named at the top and leave the rest white.
- 4** Go on a real shape walk afterwards: a clock is a circle, a window is a rectangle, a slice of pizza is a triangle.
- 5** Do not worry about exact lines. Smooth, slow tracing matters more than a perfect result.
